STRENGTHS

- Collaboration
- Problem-solving
- Communication
- Curiosity
- Leadership
- Adaptability

TECHNICAL SKILLS

- HTML/CSS
- JavaScript
- TypeScript
- React
- Next.js
- Tailwind CSS
- Node.js
- Express
- Git & GitHub
- Jest
- Playwright
- Figma

Currently learning

Postgres & Drizzle ORM, better-auth, Vercel AI SDK

LANGUAGES

- Swedish (Native)
- English (Fluent)

INTRODUCTION

I'm a frontend developer in training with a background in communication, currently studying at Futuregames. I see that communication background as an asset rather than a detour. The ability to make sure a team understands each other only matters more as the developer role becomes more fluid. What I enjoy most about development is the puzzle-solving: seeing how the pieces fit together and following something all the way from idea to finished product.

EDUCATION

FUTUREGAMES

2025 – Present

Frontend Developer

- Frontend programming, JavaScript frameworks, version control, web application development, web servers and databases.
- Currently seeking an internship placement for Jan 4 – May 21, 2027.

UMEÅ UNIVERSITY

2020 – 2023

Strategic Communication

- Bachelor's degree in strategic communication. Responsible for the web and communications committee for one year.

DANDERYD HIGH SCHOOL

2014 – 2017

Social Science programme, media, information and communication specialization

WORK EXPERIENCE

DIGITAL COMMUNICATOR

2023

Royal College of Music in Stockholm

- Internship and temporary position in digital communications. Worked with social media, published news and wrote articles, and built a website about rhythmic. This is where my interest in programming was sparked.

TRANSPORTER (TEMPORARY)

2023 – 2025

Skansen

- Responsible for producing props ahead of events. Grew into a lead role with responsibility for event readiness across multiple occasions.
