INTRODUCTION

Originally coming from communication, but switched paths after realizing how much more rewarding it is to think about something from a communication perspective, then turn it into something interactive. What I like most about development is taking something from idea to a finished product that actually works, most recently an AI-driven chatbot built with Next.js and Claude. The developer role is also becoming more collaborative, and I think my communication background makes me an attentive team player with an eye for how the user thinks and what they actually want.

TECHNICAL SKILLS

HTML/CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Node.js, Express, Git & GitHub, Jest, Playwright, Figma, Postgres & Drizzle ORM, Supabase, Vercel AI SDK

STRENGTHS

Collaboration, Problem-solving, Communication, Curiosity, Leadership, Adaptability

LANGUAGES

Swedish (Native), English (Fluent)

PROJECTS

ASK ME ANYTHING

2026

AI chatbot with generative UI

- A standalone AI chatbot that answers recruiter questions about my background, skills, and projects. Built with Next.js, the Vercel AI SDK streaming a Claude model, Drizzle and Postgres via Supabase, and better-auth.

HSS GROUP ACTIVITY

2026

Client website for a sea scout organization, team project (4 people)

- Built together in a four-person team from a design provided by another student. Agile workflow, with multi-language support and Instagram integration.

EDUCATION

FUTUREGAMES

2025 – Present

Frontend Developer

- Frontend programming, JavaScript frameworks, version control, web application development, web servers and databases.
- Currently seeking an internship placement for Jan 4 – May 21, 2027.

UMEÅ UNIVERSITY

2020 – 2023

Strategic Communication

- Bachelor's degree in strategic communication. Responsible for the web and communications committee for one year.

DANDERYDS GYMNASIUM

2014 – 2017

Social Science programme, media, information and communication specialization

WORK EXPERIENCE

LOGISTICS AND TRANSPORT

2018 – 2025

Skansen

- Continued 2023–2025 as a temporary employee and grew into a lead role with responsibility for event readiness across multiple occasions.
- Worked 2018–2022 as a driver and funicular operator: responsible for keeping the funicular running and handling all riders, and drove transport requests from staff around the grounds.

DIGITAL COMMUNICATOR

2023

Royal College of Music in Stockholm

- Internship and temporary position in digital communications. Worked with social media, published news and wrote articles, and built a website about rhythmic. This is where my interest in programming was sparked.
